

Remarks

Claims 1 and 3 to 7 and 9 to 15 have been amended. Claims 2 and 8 have been canceled.

Support for the amendments on page 3 can be found, e.g., also on page 3, namely in the paragraph starting on line 14 and the paragraph starting on line 18.

Support for the amendment on page 4 can be found in the general literature, for example, in Claffey et al., J. Biol. Chem., Vol. 267, No. 23, pp. 16317-16322 (1992) (attached). See, e.g., page 16319, upper right corner. Thus, the person skilled in the art would have not only recognized the existence of the error in the specification, but also the appropriate correction (MPEP § 2163.07).

Accordingly, entry of these amendments is respectfully requested. A substitute sequence listing correcting the above error is also submitted herewith.

Respectfully submitted,

/Joyce v. Natzmer/
